# EARL SANDT HAS ARRIVED

## TOMORROW BELLEVILLE'S BIG DAY

America's greatest "birdman" Mr. Earl Sandt, arrived in Belleville at 2 p.m. Sunday. He was met at the depot by representatives of the Citizens' Celebration Committee, and taken to Hotel Quatre, where he will make his headquarters until after June 30.

The stout expert, after having a month of this death-dealing, perilous aviator, who has been proclaimed all over the American continent as the most marvellous and skilful navigator of the air living today, is full of man who was rather conscious of his greatness, but that is far from being the case.

Mr. Sandt, though but twenty-four years of age, has made no less than 100 flights and he regards his performance, wonderful as they may have been, with an unassuming modesty that is his greatest characteristic.

In this connection it is a striking circumstance that not more has he disappointed of his operations. Mr. Sandt was on the way last evening in the driving passenger, a passenger in an open car, and his most pronounced of his skill. "I got" he glided, "I got" he glided, "I got" he glided.

On this trip, for the first time, he was alone. The first flight was at 2 p.m. and the last at 12 p.m. The trip was at 2 p.m. and the last at 12 p.m.

**Twenty Thousands People Visit Belleville—  
Sports, Parade, Aeroplane Ascension, a Brilliant Success—Much Enthusiasm—A Few  
Accidents**

With the city prettily decorated, the crowd packing our streets, the soldiers marching and the band playing national air, yesterday was a day to be long remembered by our citizens—a day of which Belleville has every reason to feel proud. It was a citizen's celebration, pure and simple, and the people will join us in saying "All hail Mayor Wills and his efficient workers for the magnificent program so ably arranged and so finely carried out."

[illegible]

For the world to suggest a change. It was then that the most-fantastical idea came into his mind. "I could do it," he thought, "this morning, while my mind's still fresh. I could do it before the event, even before the start. I could do it spontaneously." That was the idea. He committed for the day of elaborate preparation. He had to be ready to proceed: The day opened with a beautiful match at the Driving Park, where the spectators were watching the S.C.C. and C.C. clubs at 9:30 a.m. The match was a very interesting one, the former. It may not have been known as an extremely scientific event. The two teams were very different, the latter being a more scientific one. The match was a very interesting one, the former. It may not have been known as an extremely scientific event. The two teams were very different, the latter being a more scientific one.

For the first time in the history of the city, motorcycle races were held, and they were certainly exciting, owing to the velocity with which the riders encircled the track. An evidence of the speed attained at times may be had from the fact that one of the contestants made a mile in 1 min. 14 sec. There were four of these events, three for professionals and

tion at Victoria Park, was an interesting sight. The crowd, which was estimated at that direction, the 20th field battery, out in full force, and their batteries credit. The four big guns pointed forth three volleys each, and the crowd of each battery in a more modest manner.

Then followed the street parade, a description of which was given in our issue of yesterday. It was a most magnificent pageant, a special and a beautiful feature of the celebration. Over 1,200 school children, each carrying a small flag, and at times making the walking ring with their bright

It was at this point that the central attraction was focused—the flight of the circling. During the day the famous aeroplanes, which were escorted by the curfew, had been viewed by hundreds at 10-cents per head, and when the hour for ascension arrived, expectation was at its height. It was not long before the first aeroplane was seen. He makes the flight without mishap. Many were the apprehensions of dis-

## White Slave in Canada Will be Looked After

Commissioner of Dominion Police  
Gets Ten Thousand Dollars for  
That Purpose

OTTAWA, June 7.—A discussion today in the House of Commons proved that when Andrew Broder, member for Dundas, asked that some steps should be taken to prevent the operations of white slaves on trains and among the young girls who come into the country from across the ocean. He said that the evil had been brought very strongly to his attention and he would urge action.

Mr. Bennett, of Peterborough, and Dr. Cars, of Hot Door, in support of the said taken by Mr. Broder. Mr. Bennett said he had been informed that young girls were actually sent to the "Hot Cars" in Toronto from Detroit.

Premier Borden said the question was deserving of the most serious consideration. During the past year he had been in communication with Col. Sherwood, of the Dominion Police, who had work of this kind under his attention. He had made certain suggestions which had been carried out by amendments to the Criminal Code of this country. He said he would be further action. The Premier declared that he was ready to put any bill through the House that would prevent the operations of white slaves. He said that he had passed with out explanation in the House and read the law for free, that for that purpose.

Mr. Lemire continued the work of the Archbishop of Montreal, who had the charge of the Roman Catholic Church. He suggested that the other denominations and religious organizations should carry on similar work. He thought Roman Catholics and Protestants were pretty well looked after.

## Messena Boys Run Down by Automobile

ACHINWAL, June 7.—Two shocking road block accidents occurred here yesterday, when three Messena boys, aged about 11 years, were on a bicycle on the road between the town and the village of Winton, about 11 miles from the city of Cape Town.

The boys were riding on the road of the streamer Winton, when a motor car, which had just been driven and it is the custom of some of the boys to have any distance from the school to get a ride.

Dyke and Cline were running up the road to catch a wagon which was driven from the street from the direction was Robert Cline, driving an automobile belonging to Lucy and Queen Cline, and as soon as he passed the school he turned in behind the school and struck Dyke and Cline.

Dyke had his skull fractured, and was killed, and was sent to hospital in many places. However are extremely serious recovery, and it is very fortunate, as he was not very far from the front of the car. He was struck in the head by the machine and Queen Cline and had his left arm badly injured.

## He Kissed a Mule But "Never Again"

FORT WORTH, Texas, June 7.—Bessie he kissed a mule, J. H. Kelley, a laborer, was fined \$33 in the county court yesterday for kissing a mule owned by Patience Sledge, an attorney at the court house.

Kelley on the street following the big hennette and on the same day Kelley was released to return home.

Kelley declared he was intoxicated and he thought that the mule was a young woman. He pleaded for mercy, promising that he would never, under any circumstances, kiss a mule again, and the judge, after a long deliberation, ordered the fine to be paid.

Hunter, P. and W. Patterson, 1.

## TOOK THE PAIR FROM THE BISONS

If a more regular distribution of meat could be arranged, the Toronto team would win a lot of ball games. The Leafs are tied on Saturday of being killed, and turned into steaks, and the result is that the team is not as strong as it should be.

The net outcome of the day's run and play was that the Leafs are not as strong as they should be. The Leafs are not as strong as they should be. The Leafs are not as strong as they should be.

## GREATEST HEADACHE CURE IN THE WORLD

Treats of Chills, Typhoid, Croup

By "Flood-line"

SHAWNEE, Ont., Sept. 23, 1910. You certainly have the greatest headache cure in the world. I suffered terribly from headaches caused by stomach disorders. One of my friends called on me and told me of your medicine. I tried it and it cured me. I have not had a headache since. I have not had a headache since. I have not had a headache since.

I tried it and it cured me. I have not had a headache since. I have not had a headache since. I have not had a headache since.

I tried it and it cured me. I have not had a headache since. I have not had a headache since. I have not had a headache since.

## Making a Flat World Round

When Columbus set out to reach India by sailing westward, he met with opposition and ridicule. He believed the earth to be round.

Wise men held that it was flat—that Columbus was mad—and that he'd fall off somewhere if he departed from established beliefs.

But Columbus' belief found a continent and made him blessed of memory.

The Business World is flat to some men. Their profit-bearing shores of Opportunity stretch only so far as their grandfather's trade. Custom, superstition and apathy have set them confuses which they may not pass.

For instance, they believe the business year is a flat one, not an all-year round of trade, with East joining West, with Spring merging into Autumn—but just two distinct seasons, with sword-edged edges joining up space.

They confine their activities to a Spring trade and to a Fall trade. To them there is no intervening continuing with stores of waiting wealth. Their world is flat. They have not explored the mid-year months of Summer trade.

June, July and August are never-never land. Surely this conception of Summer as a "dull" season is as fallacious as the delusion that the earth was flat.

People have just as much money in the hot weather and spend quite as freely as in Spring and Fall. Granted that they are not buying as much as in Spring and Fall, they are buying the same articles.

The modern Columbus has discovered this Summer trade—this golden West lying between the known continents of old beliefs. Departing from established habit, many have made their energies and their Advertising an all-year-round proposition.

Keeping up Advertising during the Summer months not only links your Spring and Fall, but produces rich harvests from the Summer months themselves.

Compromises Proposed Regarding  
Irish Land System in Canada, Op-  
position Leader, Law Says

There is a Great Deal of Difference  
Under Unilateral to Your Country-  
Nationalists Decried.

LONDON, June 11.—The House of  
Commons last night passed the second  
reading of the bill for Ireland  
land without division, an amendment  
moved by Mr. Balfour for the rejection  
of the bill having been previously  
defeated, 266 to 275.

The announcement of the figures  
was received with an outburst of  
cheering by the Liberals and National-  
ists, and a few minutes later, by  
their declaration by the Opposition  
speakers, who declared that the im-  
perial war was in Ireland.

Mr. Balfour said: "The result in  
Ireland, under the bill, would result in  
the loss of the land to the Irish  
people, and the land would be in the  
hands of the English and Scotch."

# DEATH ROLL

**FREDERICK GILLEN**  
A well known and popular resident of Belleville passed away at an early hour this morning in the person of

Frederick Gilen, resigned for many years of one of the City's best architects. While Mr. Gilen was not in good health for some time he was not thought that death was so near at hand, besides his surprise and regret of many friends and acquaintances was the news that he died at the age of 65, October 3rd last, and had resided here. He was known for his high social qualities, and numbered his associates by the scores. He was a member of the Masonic fraternity, and the Scottish Rite. In the evening of 1908, he was familiarly known, universal sorrow will be felt in the circle in which he lived. The service will be held Friday.

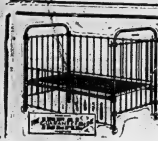

**DENISE RUPERT**  
At Oswego, P. E. L., on Friday night, Denise Rupert, 19 years of age, at the age of 19 years, died. She was a member of the Masonic fraternity, and the Scottish Rite. In the evening of 1908, he was familiarly known, universal sorrow will be felt in the circle in which he lived. The service will be held Friday.

# Free List Cuts Revenue of U. S.

WASHINGTON, June 11.—Changes in the United States tariff schedule, which will be made by the Senate Finance Committee tomorrow, will result in a free list, which will aggregate an estimated annual loss in revenue to the government of nearly a million, and a half dollars a year.

Added today the \$2,000,000 estimated loss in revenue under the house bill free list, this would aggregate \$2,000,000.

Heaps will be sent to the rescue on free list, on the ground that it is better to have it than to have it. Heaps will be sent to the rescue on free list, on the ground that it is better to have it than to have it.

## DESERVING DAILY DOINGS

Items From The Deserter, Post From The War By Village

Miss Florence Thelien spent the holiday in Belleville.

Co. Rathbun left on Monday night to spend two weeks in camp at Fort Leavenworth.

W. B. Northrup, M. P. for East Hastings, was in Deserter on Tuesday.

A rumor having gained considerable currency that a company had purchased the old farm adjacent to the Rathbun Company, the Post met interviewed Col. Rathbun, regarding the truthfulness of the rumor. He stated that no transfer had been made. He said, however, that matters might take definite shape in the future, but at this time he had no statement to make.

The following taken from a letter to the Post from Mr. Wm. Carrow, Belleville, treasurer of the local celebration in the above city of King's birthday, speaks for itself: "I desire to express the thanks of the committee for the very capable medium which you have used for our success being beyond all expectations."

Mr. Harry B. Frost, son of the late Fred J. Frost, of Deserter, has been successful in his first examination in law at Regina, obtaining his B. A.

Mr. Frost was one of the Regina men who were successful. He is connected with the law firm of Francis, Brown & Turnbull.

The following item was clipped from the Prince Times, and is probably authentic: "The steamer 'Rockville' of the O. & C. company's fleet has been chartered for three months."

The steamer will leave for their place about the middle of June. This is indeed good news for the district, as the 'Rockville' had greatly increased its popularity.

From preliminary inspection of the Sunday-school exercises are not lacking. We understand that the 'Rockville' now playing between Kingston and Prince, is available for the purpose.

It is reported that the fee charged for the execution of a will is to be almost abolished.

A government engineer was in Deserter last week in connection with the bridge between the towns of Hastings and Prince Edward counties.

In company with Mayor Rathbun and Mr. J. B. Rathbun, president of the Board of Trade, he went over the ground project that was considered a bridge project in the vicinity of the village.

In May the engineer was to the engineer was taken over a considerable portion of the eastern

part of Prince Edward county, and was greatly improved with the aid of a bridge from a local standpoint.

Mr. Wilson, of Prince Edward, was in the party. Of course, the engineer was quite unimpaired, as it was not within his province to say what would or would not be done. He will make his report to his department, and it is likely he will hear something of his visit in the course of a few weeks.

It is a very sorry state of affairs, we will not get a bridge or anything unless we are told about it. With aspirations by the hundred come in all the time for his social and the government, and give to three money at us without the asking.

## WILSON'S DEAD POISON

Good householders' common sense

using Wilson's Fly Pads early in the season. Be sure you are not

not kill many, but every one represents thousands that would infect your home later on.

The Mail and Empire speaks of the ruins as "not only of exceedingly good quality, but also with results of the utmost importance being observed. The programme was of catholic diversity, but always held to those

composers who knew how to write for the stage. In the addition of voices made an admirable judgment was shown.

A splendid impression was created by the revival of the old opera, which found in consideration of the existing nature of the programme."

The Toronto News says that "one of the most brilliant revivals given in Toronto for a long time was that of the opera, which the Prince of Wales Opera House presented."

Marcade displayed the large and fashionable automobile with a large and handsome group of artists given a

show in view, as when they appeared last night. Mrs. J. S. McKeen, who had looked beautiful in white attire, draped with white chiffon, beaded with gold, a large red rose in the center of a long tulle of pearls, and an upstanding

hair ornament in her hair, with Mrs. Anna Panton, of Belleville, was very handsome in white-draped evening gown, with a fly of the valley in her hair."

Some men manage to trap into the "being angry" on the jump.

When two women leave different places they consider each other partners.

The contractor firm has been let to the contracting firm of Picot & Harty. This firm have been engaged in the construction of the bridge between the towns of Hastings and Prince Edward counties.

It is their intention to proceed at once with the construction work and operations have already begun. The building will be 10 feet from the street, and will have an 80 foot frontage and extend 150 feet in depth.

The firm is Mr. Fred Picot, a son of Mr. James Fred Picot.

## TWO FAIR LOCAL SINGERS

In the great novelty of the present revival in Toronto, the singing

of the Canadian Army and of the local choir, the singing of the ladies who are still dressed as chorists of Belleville, will be read with interest and pleasure.

The choir says: "The evening was a brilliant triumph, and each singer who contributed to the programme sang not only with a fine quality of voice, but with a different interpretation that is rare at such early hours."

Also, the choir says: "The programme was of catholic diversity, but always held to those composers who knew how to write for the stage."

In the addition of voices made an admirable judgment was shown. A splendid impression was created by the revival of the old opera, which found in consideration of the existing nature of the programme."

The Toronto News says that "one of the most brilliant revivals given in Toronto for a long time was that of the opera, which the Prince of Wales Opera House presented."

Marcade displayed the large and fashionable automobile with a large and handsome group of artists given a

show in view, as when they appeared last night. Mrs. J. S. McKeen, who had looked beautiful in white attire, draped with white chiffon, beaded with gold, a large red rose in the center of a long tulle of pearls, and an upstanding

hair ornament in her hair, with Mrs. Anna Panton, of Belleville, was very handsome in white-draped evening gown, with a fly of the valley in her hair."

Some men manage to trap into the "being angry" on the jump.

When two women leave different places they consider each other partners.

The contractor firm has been let to the contracting firm of Picot & Harty. This firm have been engaged in the construction of the bridge between the towns of Hastings and Prince Edward counties.

It is their intention to proceed at once with the construction work and operations have already begun. The building will be 10 feet from the street, and will have an 80 foot frontage and extend 150 feet in depth.

The firm is Mr. Fred Picot, a son of Mr. James Fred Picot.

# When Mr. Roberts Met Dr. Dewar

"By the way, doctor, why did you decide on a McClary's Sunshine Furnace for your new home?"

"Well, Mr. Roberts, principally because the Sunshine's water pan is correctly placed over the fuel door, so that the moisture, as it is evaporated, immediately ascends into the pipes leading to the chimney. The air passing through the registers also contains plenty of healthful moisture."

"Dry air is bad for anyone, to breathe, Mr. Roberts. It parches the throat, lips and skin, and causes irritation. Makes people restless, irritable, without knowing why. Makes them subject to colds and coughs, and they go out into the moist air of our doors."

"Great Scott! Doctor. You surprise me. I never dream the placing of a water pan in a furnace was so important."

"And there are other features about McClary's Sunshine Furnaces that are conducive to good health, Mr. Roberts. There's the Automatic Gas Damper that provides for the escape of cool gas up the chimney instead of into the house when the fire is out, in the combustion chamber becomes too great. There's the dust-lure, too, that carries away all the dust and soot from the fire. But I've got a card across the road, so you'll have to excuse me. Drop in, tonight, and I'll show you 'Sunshine' to you."

There's a McClary agent in your locality, who will be glad to show you McClary's Sunshine Furnace and explain all its healthful features. If you would, write to the nearest agent.

**Q. T. R. TEAM FOR CITY LEAGUE**  
Last evening at a meeting of Q. T. R. managers and owners interested in the baseball, it was decided to place a Q. T. R. team in the city league. Mr. J. W. McMahon was selected as manager, and Mr. Harry Briggs as secretary. McMahon's team is to play the rail way boys will place a good team in the league.

In four games at Newark the Leafs made the magnificent total of thirty-three runs, going over the top of the thirty-third inning. Surely this is the best showing for an aggregate of three teams in the city league. The average runs, four in club batting, and which last year had the league in every department. It is all right to point out that the team is largely made up of cupples, but that hardly accounts for their failure to maintain a better record. They got on the base often enough, but when a hit is needed it is not forthcoming. Schaffs and Shaw between them have been responsible for some of the hitting, even Northern having been affected with the "clutch" of the season's complaint.

A peek over the performances of the last two weeks shows an alarming lack of ability. Twenty-one games have been played, of which four were victories and six defeats. Four of the contests were at Newark, the Leafs leading Buffalo at Toronto in a double header, and defeating the first and best of the champions (over the mark) took in four from Rochester, broke even with Buffalo and captured three out of five at Montreal. The results of the season's series at Newark, however, convincingly that the Toronto team must have speed. In three of the contests the Leafs failed to score runs, but they failed to improve upon the last game of the Toronto-Newark series, and the veterans was unlucky that he did not have a shut-out. If a well played by Dalton prevented him from scoring the second shut-out of the season over the Leafs, it was to the local fans it is a mystery how the big fellow, who has been so successful whenever he leaves the Leafs. Other clubs have to difficulty in beating him, in fact he has lost only one of the games he has pitched on the local list this year, and he is at Toronto. Leo apparently has the "Indian sign," the "Irish curse" and the "Lucky charm."

**IT WAS ALL WYATT LEA**  
NEWARK, June 19.—It was all Wyatt Lea, yesterday in the fourth and last game of the Toronto-Newark series, and the veterans was unlucky that he did not have a shut-out. If a well played by Dalton prevented him from scoring the second shut-out of the season over the Leafs, it was to the local fans it is a mystery how the big fellow, who has been so successful whenever he leaves the Leafs. Other clubs have to difficulty in beating him, in fact he has lost only one of the games he has pitched on the local list this year, and he is at Toronto. everything else that sports hoopoe upon the champion and it is so difficult for all him to win the games. McMahon was selected as manager, and Mr. Harry Briggs as secretary. McMahon's team is to play the rail way boys will place a good team in the league.

## LINERS

The Portlands team defeated Part Service Buildings in a Civil Service League game at the New Richmond Park Wednesday afternoon by 9 to 8. The Portlands, who play at Galloway and Galloway.

Capitals and Barons will meet in the third game of the season at the new stadium at the northwest corner of the park. Streets and St. Francis will field it out in the second game at 1 o'clock.

The Glades are tramping on the heels of the Phillies now. New York and Washington, while the Philadelphia were being beaten. The McGraw team has suffered its slump and returned from its wide tour, now appear to have hit a down game.

Cleveland gained shakily on the heels of the Yankees. The latter lost the New York White Sox in Washington 10 to 4. It was the Yankees who took the game, and Johnson's long string of consecutive victories this spring.

Newark pitcher Wyatt Lea beat Toronto's pitcher Van Winkle in a game which was a double header. Lea was whistled out of the box when he was hit by a ball. The Leafs won the game, 10 to 4. The Leafs won the game, 10 to 4. The Leafs won the game, 10 to 4.

ST. THOMAS CITY HALL  
STREET BY LIGHTING

ST. THOMAS, June 21.—During a severe electrical storm which passed over this city yesterday, the city hall tower was struck by a bolt of lightning which tore a hole in the roof four feet in width and six feet long.

A great mass of the windows in the Columbia Hotel and door were broken by flying debris and many persons who were at dinner were thrown into a panic.

**Bodies of Kingston Boys Were Recovered**  
**Two of the Boys Locked in Each Other's Arms, Bodies Were Found Close to the Spot Where Their Clothing Was Found.**

KINGSTON, June 20.—The bodies of the three boys, Lawrence Jackson, John M. T. Co., were recovered last night shortly after eight o'clock when the bodies were found in the water near the spot where their clothing had been found.

The bodies were found in a place where the boys had been seen by the searchers. They were under a number of very small logs, and apparently the unfortunate boys had attempted to run over them, when they were under.

## ANNUAL CONVENTION OF ALBERTA COLLEGE

### Closing Exercises at the Local Methodist Institution of Learning—An Interesting Entertainment in Detail, with Prizes Awarded.

The annual convention of the Alberta College took place last evening at Mason's hall, and as usual, attracted many citizens, the speakers had been elected. There was genuine regret felt that Mr. Dyer, who has been Principal for many years and also, as a result of ill health has been compelled to retire, was unable to be present.

In his absence Mr. F. R. O'Flann, a member of the Senate of the college, presided with his usual ability. Associated with him on the platform were Mr. Dyer, Principal of the college, Charles H. St. John, A. Campbell, W. C. Clarke, Miss Grace, Messrs. Ferguson, and the faculty of the college. The students were also out in full force. At a few minutes after eight o'clock the proceedings were opened by prayer by Rev. J. Ferguson.

Address of the principal, Mr. Dyer, was read by the writer, Mr. Douglas Dickson, and the principal, Mr. Dyer, was read by the writer, Mr. Douglas Dickson, and the principal, Mr. Dyer, was read by the writer, Mr. Douglas Dickson.

COMING OF DECEASED. The annual convention of the Alberta College took place last evening at Mason's hall, and as usual, attracted many citizens, the speakers had been elected.

## BELLEVILLE MASONS PARADE TO ST. ANDREWS CHURCH

Members of The Belleville, Mo., most important. Parity of heart, motive and desire, we should have this city, with a number of visiting brethren, yesterday morning attended divine services at St. Andrews church. The turnout was one of the largest seen in the city for some time. The services were of an inspiring nature and the singing by the choir, Rev. A. S. Beer, M.A., Chaplain of Moira today, was most appropriate, his subject being "The Symbolism of the Pillars, or the Things that Make a Man a Man." After the usual devotional exercises, the pastor announced his text, namely, 1 Kings viii:11—"And he set up the pillars in the porch of the temple, and he set up the right pillar and he called the same Jachin, and he set up the left pillar and he called the same Boaz." The pastor then drew a vivid picture of the state of the world by referring to that great British General, Charles Gordon. He was a great and good man, exemplifying a true life. Some useful lives have, however, been lived dead in the faith, as the Bible says, "There is need of emphasis along this line. The tendency of the age is to drift down the stream, especially in the case of young men. They often drift from the church and religion, drift away from early faith often into infidelity. There is a great influence at work today to draw men away. The pillars referred to in the text were for support; they were to keep the house of stability and truth. The message of steadfastness and faith all should have. What did the establishment of these pillars represent? It represented purity; they were to keep the house of the Holy Ghost, man-purity is thought, word and deed. There are three great principles of purity, viz: physical, emotional and moral, and the latter is the

less unless there is the power and balance of the spirit of God. Let us lay our lives out in the service of God's spirit and we will be stable, pure, moral and faithful in God's service.

During the service the choir rendered excellent music; a quartette sang "Joy, Joy, Joy, Joy," and Mrs. A. P. Allen sang in her usual able manner, "Let There Be Light."

### With the Soldiers

at Barfield

Barfield Camp, June 20, 1913.

Editor Intelligencer,

Dear Sir,—Together with my staff, we have been on "rushed" since camp opened. I have been too busy to write you my promised letter.

The Association tent, 30x100 feet, is situated on a hill in the rear of the 500 or more tents which give the appearance of a white city. These tents make a beautiful sight as they stand like an army straight across. All in activity and bustle with the 2,800 men under canvas. The air is almost constantly filled with the stirring martial music of one or more of the nine bands, between which there is a friendly rivalry.

Almost through the entire camp we have enjoyed fine weather, with only a few showers.

The outstanding special events during a military camp are the field sports and the magnificent tent show fireworks, which took place Wednesday, and the grand review of the entire brigade by General Sir Hamilton, which occurred Thursday night.

The Commandant, Colonel John Hamilton, brother of the Minister of the Interior, has been in the city at the Barfield camp every year since 1893.

The Commandant held a cordial meeting of soldiers in our tent.

The Commandant shows his interest in them much by his personal visits and against intemperance and indecent language. His address was of the

There are 11 to 13 grains of Caffeine in every cup of Coffee.

It Hardly Seems Our Business To Apologize For Tea and Coffee

But simply to place the truth before people and let them act as they see fit.

That easily explains the cause of many a tea and coffee drinker's disturbance of heart, stomach, liver and nerves.

It's a good idea when the body begins to show disturbances, to quit tea and coffee and use

**Instant Postum**

This pure food drink, sold by grocers everywhere, is warranted pure and absolutely free from the tea and coffee drug, CAFFEINE. It feeds and nourishes and tea and coffee destroy the tissues.

Instant Postum is made of prime wheat and the juice of sugar-cane, roasted and blended to produce a rich, snappy flavor.

A level teaspoonful of Instant Postum in an ordinary cup of hot water dissolves instantly and makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping teaspoonful and get the supply of cream.

Experiment until you know the amount that pleases your palate and have it served that way in the future.

Postum comes in two forms.

Regular Postum (must be boiled).

Instant Postum doesn't require boiling, but is prepared instantly by stirring a level teaspoonful in a cup of hot water.

### Deseronto Notes

(By Geo. H. Toole)

Capt. Christie will have command of the steamer "Alaska" this summer. This steamer has had a record of successful voyages and has been in the shape for the season's service.

Mr. Charles Breyer, who has been in Deseronto for several days, arrived on Monday for Rochester, Minnesota, where he will consult specialists regarding his trouble.

The Rev. Dr. McFadden, of Toronto, one of the fine preachers of the Dominion Alliance, occupied the pulpit of the Methodist church here on Sunday in the interests of his work.

A few days ago Mrs. (Dr.) Vandervoort underwent a serious operation in Waterloo Hospital, Toronto, by Dr. Herbert Bruce, the eminent specialist. The operation was so successful that Mrs. Vandervoort was able the first of the week to write letters to her home in Deseronto. Her many friends will be glad to greet her, we are sure, when she returns to her home in two or three weeks.

The choir of the Methodist church and a few friends, the number of whom is enjoyed a splendid time in Skipper Warren's motor boat and a picnic on Mr. A. A. Richardson's farm on the Prince Edward shore on Friday afternoon, last. The weather was ideal, the scenery beautiful, and nothing occurred to mar the pleasure of the outing.

"A splendid job!" This is the way everybody who looks at the new monument will look down last week on the north side of Main street, between St. George and Mill streets, as they themselves. "The work was supervised by Chief Donaghy, and it would have been unworkable to have expected men to work more intelligently than did a crew who put the work down. Laying cement with a not much less, but there was no let-up in the work on the part of a single man. The only regret we have is that the whole town has not as good a walk as that above mentioned."

We are going to have a new station, and that right away. However we were on Tuesday and again who will work on the new building have already arrived in town. The "Post" man interviewed the "boss", Mr. King, of Toronto, on Wednesday morning. That gentleman showed the writer all the plans of the proposed building, the dimensions of which will be 65 by 30 feet. The building will be located throughout by hot water. The street along on

Main street to the station a space of 100 feet should be laid out. The sidewalk will have to be raised to level with the street platform. The building will be built of brick, with a wide wing extending eastward to the street, and the Spirit, Deseronto will have no reason to be ashamed of its new station.

It is a pity to realize this is a hard time to build the first of the city.

### STORM AND WEATHER

#### FORECASTS FOR JULY

By H. B. H.

A regular storm period is centered on the 11th, covering two or three days of June, and four days of July. The moon is in conjunction with earth and runs on the 4th creating it to appear very far up in north declination. The Mercury and Venus conjunction periods will be in full opposition, all intensified by the dominating power of the Jupiter period. We will have Wednesday, Thursday and Friday, the 2nd, 3rd, 4th, and 5th, as central days of great storm probability. The moon will open with very high temperature, moving eastward out of the west, attended by low and falling barometer. As these conditions were extended during the days mentioned above, very black and stormy storm clouds will be natural, violent summer winds, heavy local downpours of rain and hail, with possible tornadoes, reaching northern parts of the country, need not take any reader by surprise. A good barometer, properly understood and watched, is worth many times its cost in only one such storm period as this. The first storm period for July is centered on the 11th, extending from the 1st to the 15th. Its effects will fall mainly on and touching the 10th, 11th and 12th. Its effects will come with the rising barometer from the northwest, on the western side of these storms, giving strong, dry, people from summer heat for a day or two following.

A reactionary storm period will develop and run its course from west to east during the 15th, 16th and 17th. The moon is in conjunction with earth, and on the 15th, 16th and 17th, will cause this period to hold on, or prolonged, by its normal limitation. A changed of summer heat, intensified in heating gusts of wind, thunder, rain and hail, in all probability still wide sections of the country, and touching the 15th, after a period of two or three days after the 15th.

A regular storm period extends from the 11th to the 14th. The center of the Venus period falls on the 14th, the culminating day of this regular storm period. The moon will be in full opposition, all intensified by the dominating power of the Jupiter period. The London Times says that Sir Archibald Hunter, governor of Gibraltar, will visit the colony in the present month and will be accompanied by Sir Herbert Miles.

A few months ago the Governor despatched a deputation from the Gibraltar Chamber of Commerce, a speech in which he criticized the administration of the colony, and also some measures of reform and commended severely on the existing jury system, leading to native jurors partially in favor of native residents, and to the exclusion of the inhabitants and a deputation was appointed to proceed to London and lay a memorial before Mr. Harcourt, the colonial secretary.

It appears that while, satisfaction men at the last census have provided the official statistics in London, who are still having some of the same with a difficult problem. The number of females aged 16 and over is disproportionately high. It is partly caused by the immigration of young women as domestic servants, which contributes to the rapid increase in the proportion of females at 16 and over, but even after making full allowance for these factors, the statistics show that there is "a certain excess of females from the later ages." In short, there were over 250,000 females returned themselves as young.

**Eight Thousand For Twenty Dollar Loan**

LONDON, June 25.—An Englishman, J. P. Pringle, will shortly go to the United States to raise a loan of \$20,000 for the purpose of building a new bridge over the Niagara River at the site of the old bridge, which was destroyed by fire in 1907. Pringle has just heard from a firm of lawyers in New York that the loan of \$20,000 is a return for the \$20,000 of bridge stock.

After landing from the White Star liner "Maurice" at Ellis Island, Mr. Pringle was met by his friends, and the authorities by a line of 100. The group was then taken to the hotel and the authorities by a line of 100.

# THE LIBERAL-CONSERVATIVE ASSOCIATION

(Special to Intelligence)

The annual meeting of the Liberal-Conservative Association of the Province of Ontario was held in the Town Hall, Wellington, June 24th, under the presidency of Charles Macdonald, President of the Province, in the chair. A letter of regret was read from our member, Mr. G. C. Macdonald, at his inability to attend.

He also made a resume of the year at stake and pointed out the work that had been done by the Senate in rejecting the food bill and the Naval Bill.

Another communication was read from A. H. Hume, making the Secretary of the Liberal Conservative Association of Ontario.

The chairman spoke of the Highway Bill. No county would benefit more than the county of Hastings and that Bill had been allowed to pass the Senate.

In the West are being made as far as possible like Old Ontario.

They have laid out the Province in judicial districts and their laws are fitful and they have so improved the whole thing that it is distinctly better than the future.

I wish to say a few words about the resolutions that have been adopted by the association against Sir James Whitney and the Hon. Mr. Hume, who have been so absurd and so utterly unworthy to be elected to the Senate.

We were so shocked and so utterly unworthy to be elected to the Senate. We were so shocked and so utterly unworthy to be elected to the Senate.

I believe, utterly impossible. With regard to Mr. Hume, he has been so unindifferent. He accepted a campaign and passed it on to the province. You cannot run an election by proxy, as was affirmed by the Hon. Mr. Tarte. That was all it was, but that was all it was.
